ADVANCED DIAGNOSTICS MARINE

New Software Release

ADS410 SUZUKI

AD100Pro Marine

June 2012

Adavnced Diagnostics are pleased to announce the release of new software for the AD100Pro Marine. ADS410 is diagnostics software for Suzuki 4 stroke DF outboards / inboards - covering 40HP upwards. This software provides diagnostics for engines fitted with either a 4 pin or 8 pin diagnostic connector. ADC420 (4Pin) & ADC421 (8Pin) cables are included with this software.

CABLES REQUIRED	ADC420, ADC421, ADC300
DONGLE	A
SOFTWARE CATEGORY	A
OTHER SOFTWARE REQUIRED	NO

SUZUKI MARINE

The AD100Pro Marine is the diagnostics tool for the 21st Century, enabling watercraft technicians to provide diagnostic servicing & repair for all makes and models of watercraft, including jet-skis, inboard & outboard engines worldwide. For more information visit www.marinediagnostics.co.uk
